

Leader Level	Follower Level	Feedback Available	From Whom
Experienced and Competent	Experienced and Competent	Yes	<u>Mutually agreeable</u> feedback from each other is fine. When not dancing, please be strategic where you practice.
Experienced and Competent	Inexperienced and or not yet competent	Yes	Teacher/mentors only. If you want to help please focus on leading the night's moves, lead other base moves and simple variations so they can learn and enjoy the experience! Focus on dancing, prioritising what they know. If you want to help, this is arguably the most helpful and fun practice you can facilitate.
Inexperienced and or not yet competent	Experienced and Competent	Yes	We understand it is much harder for a follower dancing with an inexperienced leader. In this case, a teacher is preferred, as it is hard knowing the what the other role involves. If you can't link them in with a teacher/mentor or no teachers are immediately available, and you are asked by the leader for help, common sense prevails-minimal feedback may be provided to get them dancing again. Just normalise the learning process and be kind and encouraging.
Inexperienced and or not yet competent	Inexperienced and or not yet competent	Yes	Teacher/mentors only. We want to instil good habits from day one. Please be proactive and ask a teacher for help, it will fast track learning and make the learning experience less stressful, more efficient and more enjoyable. We are passionate about helping you in your journey, so call on us any time!

(Please remember: simply providing positive words of encouragement does wonders)
